Subject: [External_Sender] A couple of questions about the Dewey-Burdock License requirements

Hi Ron,

I have a couple of questions about a couple of NRC license requirements.

Powertech commented that the NRC License doesn't require excursion monitoring during the stability monitoring phase. I think I figured this one out when I reviewed that requirement again in the SER to put this email together.

Ex. 5 Deliberative Process (DP)

I understand that maybe someone else has Dewey-Burdock project now. If so, would you mind forwarding this email to the appropriate person, please?

Thanks!

Valois
